

Bibliography

Notes: This bibliography includes published works and unpublished documents found in Sylvia Scribner's files. The original documents, and her correspondence, will be deposited in the Archives of the History of American Psychology at the University of Akron. They are part of her estate, and her heirs have been most gracious in making them available to the editors.

The editors, with the assistance of Malka Grinkorn, attempted to identify the settings for the talks and manuscripts not subsequently published. However, in order to make Scribner's work available to the scientific community in a reasonable period of time, the more difficult questions about the origin of the documents had to remain unanswered.
